Literature Review - A selection of the work of international organizations on STEM education and STEM-related issues

Kelly Roberts
Centre for the Study of Higher Education
University of Melbourne

Table of Contents

Executive summary	3
Introduction	6
International organisations in this review	6
The European Union (EU)	6
International Association of the Evaluation of Educational Achievement (IEA)	6
International Council for Science (ICSU)	6
Organisation for Economic Cooperation and Development (OECD)	6
The United Nations Science, Education and Cultural Organisation (UNESCO)	7
The World Bank	7
The international STEM literature	8
Searching for STEM	8
Defining STEM	8
Being selective	9
Measuring STEM: International tests of student achievement	9
Programme for International Student Assessment	9
Learning domains assessed in PISA: Scientific literacy	10
Financial education in PISA	13
The results	14
Change in PISA performance	21
Trends in International Mathematics and Science Study	25
Like PISA, but, distinctly TIMSS	25
Reasons to assess student learning outcomes in science and mathematics	26
Learning domains assessed in TIMSS: Mathematics	26
Learning domains assessed in TIMSS: Science	27
Supplementary to the test: Background and curriculum questionnaires	28
The results	29
Measuring learning in tertiary level engineering: AHLELO	33
International achievement tests: Outcomes, impact and critics	34
The PISA impact	35
Uses and impacts of the TIMSS test series	36
STEM-related research and policy work	38
Attracting students to STEM	38
Declining numbers of students studying STEM	38
Attitudes to STEM in economic priority	40
Recommendations	40
Women in STEM: A consistent theme	41
What is the problem?	42
