

# The Returns From Arthritis Research

## Summary

- Neck pain is common but most cases aren't caused by a serious problem.
- Most cases of neck pain get better on their own within a few weeks.
- Stay active. Bed rest for more than a couple of days makes it harder to get going. Gradually increase your normal activities and do regular exercise.
- Take painkillers if needed so you can stay active.

Your pain should ease within 2 weeks and you should recover over approximately a 4–6 week period.

You should use the suggested exercises for at least 6–8 weeks to help prevent symptoms returning.

If you have severe neck pain or weakness in your arms/hands, contact your doctor.

This report, prepared for and funded by the Arthritis Research Campaign (arc), presents the results of an evaluation of 16 research grants awarded by arc in the .The returns from arthritis research.
